

United Mineral and Chemical Corp.

We are excited to announce that UMC has entered into an agreement with Klar Scientific, Inc. (<https://klarscientific.com>) to be their exclusive distributor of instruments and wavelength kits. Klar Scientific focuses on instruments for spectroscopic mapping from UV through near IR. Each instrument is expandable to meet your needs, and most wavelengths and bandgaps can be accommodated. Reach out to UMC or Klar Scientific to find out more information about our products and how we can help you study any material at a sub-micron scale.

Klar products will be part of the High-tech solutions provided by UMC's Deposition Products group and fits in with the industries currently supported.

We look forward to the new partnership and working with Klar customers and staff.

Klar Scientific is located in:

Pullman, Washington

klar@klarscientific.com

The logo for Klar Scientific features the word 'Klar' in a large, bold, black, sans-serif font, with the letter 'K' in green. Below 'Klar', the word 'Scientific' is written in a smaller, black, sans-serif font.
