FUNCTIONAL FILLERS

Twinone SS-1000 (blurring /soft focus effect)
Twinone PS-2000 (silica)
Twinone CS-3000 (silica & triethoxycaprylsilane)
Synthetic Mica
Natural Mica
Platy-alumina
Boron Nitrides
Bismuth Oxychloride (BiOCl)- Powders and Dispersions.

BIODEGRADABLE GLITTERS

*All Biodegradable glitters are Vegan.
Glitter specially made from renewable materials.
Various particle size ranges available. Free of polymers and plastics.
Perfectly suitable for cosmetics.*

SiLiglam® PURE BIO SPARKLE

- Made from Cellulose
- Suitable for dry powder applications
- Oil / wax based formulations
- Solvent based nail lacquer
- Soft skin feel with shiny brilliance

SiLiglam® PURE NATURE

- Intended for dry (powder) and oil-based applications.
- Made from Cellulose Acetate.
- The material shows good resistance against alcohols, but low resistance against Ketones and Esters.
- Very soft skin feel with shiny brilliance.

SiLiglam® PURE BIO OPAQUE

- Loose glitter
- Dry powder
- Wax / oil based formulations (e.g lip stick, pencils)
- Nail polish (solvent based)

RAW MATERIALS

Silicones

Fumed Silica

FD& C Colors

Talc Alternatives

Mineral Compounds

Sunscreen Actives

Surfactants

Natural Products:

- Pearlite

Plant-derived:

- 1,3 Propanediol
- 2,3 Butanediol
- Glycerin Caprylate
- Natural Pentylene Glycol

INGREDIENTS

Acidulants

Caffeine (natural & synthetic)

Glycerin

Natural Sweeteners (stevia & monk fruit)

Preservatives

Propylene Glycol

Vitamins & Minerals
